

## LSVT BIG® 2-Day Training and Certification Workshop for Physiotherapists and Occupational Therapists – Birmingham UK.

The LSVT BIG Training and Certification Workshop is a two-day program designed to train physiotherapists and occupational therapy professionals and students in an evidence-based, intensive treatment protocol for individuals with Parkinson disease.

The fundamental treatment principles and rationale, key treatment elements, efficacy data supporting treatment outcomes, details of treatment tasks, and practical delivery will be covered. Teaching techniques include lecture,

demonstration, and case study presentations. Discussion will be included on application to other neural disorders and customization of treatment delivery to meet the unique functional goals of each patient.

---

**Course Date** Saturday 23<sup>rd</sup> – Sunday 24<sup>th</sup> March 2019

---

**Course Venue** The Studio, 7, Cannon Street, Birmingham B2 5EP

---

**Course Certification** Practitioners directly certified by LSVT Global, Inc. who have attended an LSVT Training and Certification Workshop with specific training in the LSVT modalities of treatment for individuals with movement disorders related to Parkinson disease and other neurological disorders or conditions are entitled to use the LSVT trademarks.

An individual who has attended a Workshop and received a certificate of LSVT training will be able to use the LSVT trademark to refer to themselves as an "LSVT trained clinician."
