

Call for Student Treatment Research Proposals

LSVT Global Student Grants (LSVT-SG) for Occupational Therapy Behavioral Treatment Studies with Neurologically Impaired Patients

Call for Proposals

Purpose: To provide seed funding to occupational therapy graduate students (master's, doctoral or post-doctoral) planning on or in the process of completing behavioral treatment studies with neurologically impaired patients.

Note: The behavioral treatment does **not** need to be LSVT BIG. Domestic (USA) and international applications are welcome.

Deadlines

Letter of Intent Due: June 10, 2021

***Invitations to write a full proposal will be sent within one week of this date (June 17, 2021).**

Proposals and Application Due: July 15, 2021

Award Period: September 1, 2021 – August 31, 2022

Eligibility: Graduate students (masters, doctoral or post-doctoral trainees) in occupational therapy training programs whose university supports research.

Amounts: Awards are \$1,500. Two grants will be awarded.

Administrative Contact: GERALYN SCHULZ, PhD, Grant Coordinator, LSVT Global, Inc.

Email: geralyn.schulz@lsvtglobal.com **Website:** www.lsvtglobal.com

Occupational Therapy Research: Proposals that require seed funding for behavioral treatment studies. These proposals can include behavioral treatment studies related to any motor and/or sensory related disorder that results from neurologic damage. Populations studied could involve any age so long as there is a diagnosis of a motor and/or sensory disorder resulting from neurologic damage or disease. It is expected that an LSVT-SG will result in a presentation of findings at a national or international meeting appropriate to the research study proposed.

Application Procedures: Email geralyn.schulz@lsvtglobal.com for Letter of Intent and full application submission Instructions.
